

WE BUILD PEOPLE WHO BUILD THE FUTURE

PROJECT	LOCATION	HIGHLIGHTS
Lookout Road	Selma	Multi-use trail design (hike and bike) Roadway expansion with center turn lane Improved access management High-volume roadway construction
EPIC Water Roadways	Grand Prairie	Complex construction Robust pedestrian improvements Innovation management of freight vehicles Intersection design
Gilmer Street Road and Pedestrian Improvements	Killeen	Sidewalk and mobility improvements Roadway design Road diet Railroad crossing safety improvements
Downtown Longview Revitalization	Longview	Multi-use trail design (hike, bike & sidewalk) Roadway expansion with center turn lane Improved access management High-volume roadway construction
Creekside Drive	Southlake	Developer-led thoroughfare extensions Drainage improvements Detailed driveway tie-ins 3 Large culvert crossings Storm drain design
Custer Farms	Frisco	High profile subdivision street design Substantial construction administration Assist the city with public engagement
Coit and Glendenning Roundabout and Road Extension	Celina	Developer-led thoroughfare extensions Extensions of country road Double lane roundabout Bike and pedestrian improvements Drainage Utilities Expedited schedule
Celina Parkway Road	Celina	Developer-led thoroughfare extensions Extensions of major connector Bike and pedestrian improvements Drainage Utilities
Coit Road Extension	Celina	P6D roadway extension Phased design Bike and pedestrian planning Development coordination Interchangeable with Collin County Outer Loop
GA Moore and Legacy Intersection	Celina	Developer-led thoroughfare extensions Double lane roundabout Drainage Utilities TxDOT intersection

# TRANSPORTATION CENTER OF EXCELLENCE

KSAENG.COM | 877.572.3647

# KSA is dedicated to making life better in communities.

Transportation systems play a huge role in our ability to go about our everyday lives—both work and play.

KSA has been designing public infrastructure for more than 45 years. At the core, we are committed to improving the **safety, comfort, and mobility options for the city and county constituents**. Our legacy projects include a host of street and road developments and improvements. We work with municipalities and state agencies for street assessments, safe street programs, capital improvement plans, **street improvements and reconstructions and the planning and design of new alignments**.

We are pre-certified in nearly two dozen Texas Department of Transportation (TxDOT) work categories. When we partner with DOTs, municipalities, counties, and transit agencies, we deliver high-quality, innovative products within budget and on schedule. Not only do we design according to the appropriate standards and specifications, we are also mindful of natural resources and minimizing our impact on the environment.
